BONGO
LORD DERBY ELAND
MOUNTAIN NYALA

"THE REWARD OF YOUR CHALLENGE IS A TROPHY OF A LIFETIME!"

Northern Operations Africa, an African hunting safari service based in the USA, specializes in trophy hunting for the Western Bongo, Lord Derby Eland and Mountain Nyala. Owned and operated by Dave Rademeyer and his wife Maria and supported by a great team, Northern Operations Africa is able to provide clients across the globe with the authentic hunting experience they're after - tracking the elusive and classic spiral horns of Africa!

Dave Rademeyer was born into a family of hunters in Bulawayo, Zimbabwe. From early childhood, he would either join his father, legendary PH Fred Rademeyer, on his hunts, or he would take off to explore the bush on his own. Spending days and nights out there, he learned the habits and habitats of many different animals. The more time he spent in the bush, the more he knew he wanted to turn his passion for hunting into a career.

When he joined well renowned Swanepoel and Scandrol Safaris in 2000, he was fortunate enough to be able to explore Africa as a backyard for hunting. He has hunted and guided in 13 African countries, and has taken well over 100 different species and subspecies with clients, most of which have been SCI Record Book material. The "never give up attitude" has allowed Dave to obtain some impressive and top quality trophies, from Ethiopia to South Africa, which have made Top 10 in the SCI record Book. Through all these years, countries, safaris, and species he has acquired endless knowledge and experience of what African hunting is all about.

Experiencing hunting from the outside (from the client perspective), Maria E. Abascal was always intrigued by different forms, species, and types of hunting. Having grown up in a family of hunters, it is something she loves and wants to spend doing for the rest of her life. On her first safari to Africa, she met Dave. They knew it then and still know it now—hunting brought them together!

With all the love and passion they have for African hunting safaris, Dave and Maria created Northern Operations Africa to offer clients an unmatched African hunting adventure. Dave's insider knowledge, combined with Maria's understanding of the modern day client's needs and expectations, have meshed as one, allowing them to better serve their clients.

NorthernOperationsAfrica.com

"THE REWARD OF YOUR CHALLENGE IS A TROPHY OF A LIFETIME!"

We believe that a well rounded PH is a very important trait—one that has hunted in a variety of African countries and taken a diverse assortment of species. Being able to understand the local communities, fauna and flora is also a must for the PHs we endorse. **Professional hunters working with Northern Operations are experienced and knowledgeable about the hunts they conduct.**

We encourage our PHs to create a lasting relationship with each of our clients, working hand in hand with them, and understanding differences among our clientele. Giving them the insight to understand the entire realm of the industry, by being part of the conventions, and meeting the clients before hand, we push to immerse our PH in more than just the actual field work.

Fred Rademeyer, Hunting Consultant, PH, Agent

Fred Rademeyer, with forty years of experience hunting big game in Africa, is a huge asset to Northern Operations Africa. He brings an incredible amount of knowledge and know how to the whole scene of African hunting. Fred, the father of Dave, has joined the team to help perfect the safari company through development and promotions. Not only does Fred join us as a PH, but his knowledge and past experiences on how to keep true African Hunting exciting and memorable is priceless to the company.

Jacques Meyer, PH

Zimbabwean raised in a family of hunters, Jacques has spent a lot of time in the bush surrounded by some of our most experienced PHs. He has learned from the best and has experience in Botswana, Cameroon, Tanzania, Zambia and Ethiopia. Jacques is also very involved in the logistics of the company and is the general manager for Collect Africa.

Thierry Labat, PH

Born in Mauritius and fluent in French, Thierry communicates with ease in Cameroon.

His great work ethic, determination and good sense of humor are a perfect combination for success. Thierry has paid his dues over many years in Cameroon North and has built a great reputation and gained extensive experience. During the off season, he spends most of his time conducting hunts in Zimbabwe, his home.

Deon West, PH

Raised in Zimbabwe and being involved in hunting from a young age, Deon is passionate about what he does. He has hunted in South Africa, Zimbabwe, Tanzania, CAR, and Cameroon. He has been the leading PH in Cameroon for the past four seasons.

Micah Du Plooy, PH

Born into a wildlife orientated family, Micah has spent every holiday or long weekend traveling across Southern Africa. After school he studied field guiding and spent four years guiding and managing camps in Kruger National Park, Pongola Game Reserve, and the Okavango Delta. In 2012, he became a fully licensed Professional Hunter and since then has hunted South Africa, Mozambique, Tanzania and Cameroon. His youth ignites hard work, drive and an intense desire to learn from the best in the industry.

Pete Wood, PH

Peter was born in 1975 into a family that always enjoyed the hunting and the outdoors. After school, he started working towards a Zimbabwe Professional Hunters License, which he acquired in 1999. He's been hunting ever since. Pete's high ethical hunting standards and repeat clientele is testimony to his hard working, go-get-it attitude. Peter is proficient in mechanics and fluent in three languages.

- Observer fees @ \$350/day

These fees which are "not included" in the Base Safari Rate are paid prior to the conclusion of the safari, or upon safari completion based on actual costs incurred. For example, trophy fees and gratuities must be paid at completion of safari.

The magnificent Bongo has lured us to specialize in offering our clients a hunt that results in a beautiful trophy. A 2-hour charter from your arrival point, Douala, our area is found in the Southeastern part of Cameroon, bordering

Loebecke National Park for many kilometers. Again, the area we specialize in is abundant for Bongo and other species such as Forest Sitatunga, Dwarf Forest Buffalo, and an assortment of duikers. Over the last consecutive seasons, our average for bongo is 29", where 95% of our clients have taken their trophy before the week's end, allowing time to focus on remaining species available.

What makes Cameroon Bongo hunting so great? The Experience. Here we track and hunt alongside the Pygmies and dog entourage. The pygmies track the bongo and the dogs bring it to bay once you catch up with it. Hiking through the Cameroon Rain Forest, with the pygmies, while after your trophy of a lifetime, is an unmatched experience. The local tribes, fauna, flora, geography, food, and people make this hunt one you will never forget.

The best time to book your Bongo Safari is during the rainy seasons. The rains encourage Bongo movement, enabling pygmy trackers and PHs to pick up tracks more easily. April through June would be the perfect time to visit Cameroon; join Northern Operations Africa on a hunt of a lifetime.

An unmatched experience!

North CAMEROON hosts some of the best LORD DERBY ELAND hunting in Africa. From its rich habitat of Gardenia and Terminalia vegetation, to its rolling hills dotted with large Pod Mahogany trees, where large herds of Eland take refuge in the mid day heat.

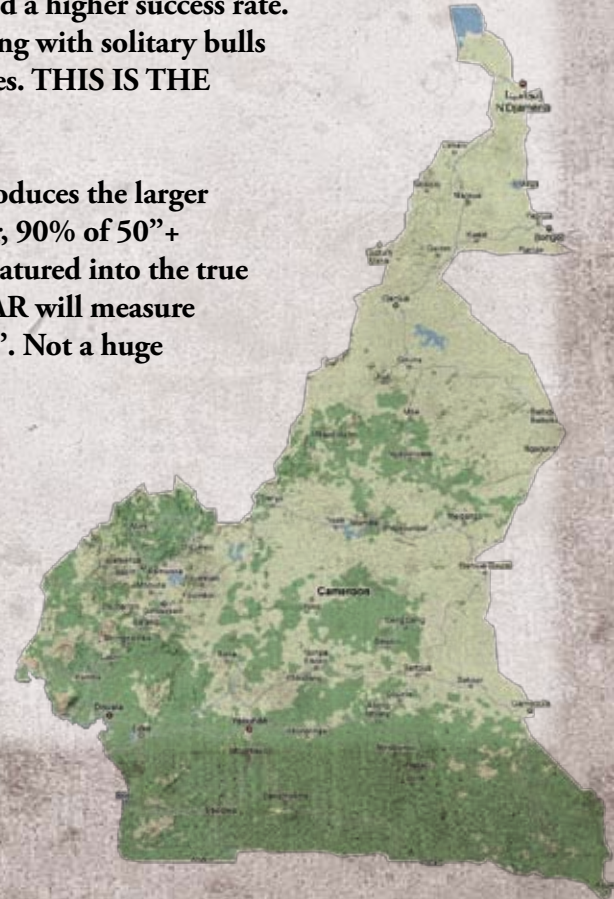

LORD DERBY ELAND

CAMEROON SAVANNAH

Cameroon is renowned for its Lord Derby Eland in numbers. The combination of open visibility and good road networks offers the client easier hunting and a higher success rate. Herds up to 100 strong, can be expected to be tracked and seen, along with solitary bulls that skirt the herds while waiting for the chance to spread their genes. **THIS IS THE ULTIMATE TIME OF THE YEAR - THE RUT!!!**

NOA understands how clients have been led to believe that CAR produces the larger Eland trophies, and yes the record books will confirm this. However, 90% of 50"+ Eland that are taken in CAR are younger bulls that have not fully matured into the true Lord Derby Eland character. On average an OLD mature bull in CAR will measure in the 47-48" range, where as one in Cameroon will measure 46-48". Not a huge difference if you take into consideration the country's safety factors.

Some of the best Lord Derby Eland hunting in Africa!

Ethiopia Price List & Hunt Options

*** Please note that NO trophy fees are included in prices below

Highland Mountain Nyala (only)

Menelik's Bushbuck can be added to this option.

\$59,850

Highland Mountain Nyala *PLUS* Lowland Species

This option gives you the opportunity to add one or multiple areas as an upgrade.

TBD

Lowland Safari Species (only)

This option gives you the opportunity to hunt one or multiple areas for the desired species.

TBD

PLEASE NOTE: Due to the complexity of the Ethiopian regulations for adding multiple areas or species to hunting licenses, we've chosen not to show the prices on any of the upgrades. We would rather offer our clients a customized package of exactly what species they are looking for. Once the client has decided on what they'd like to hunt, we can then give a detailed breakdown of the costs and regulations.

These fees which are "not included" in the Base Safari Rate are paid prior to the conclusion of the safari, or upon safari completion based on actual costs incurred. For example, trophy fees and gratuities must be paid at completion of safari.

The Mountain Nyala is a trophy of trophies. There is something about this very unique spiral horn that makes it well sought after. The Mountain Nyala, only indigenous to Ethiopia, is like no other of its subspecies counterparts. Depending on

the type of experience, hunt and species you would like, Northern Operations Africa does their best to customize your hunt, allowing you the opportunity to bag different types of species along the way. All safaris originate and end in Addis Ababa, the capital.

Ethiopia offers hunters a wide array of species that are not found anywhere else in the world. It offers unique safari experiences, from the West, to Mountains in the Southeast, and even the Northern desert regions. Visiting such a unique country full of indigenous wildlife, culture, and tribes, makes the experience in and of itself a success.

MOUNTAIN NYALA
